

WHITE CASTLE HILLFORT

Student placements available

Rampart Scotland offers a refreshing approach to training in archaeology through an established research plan. We investigate **Celtic Iron age hillforts** using survey & key hole trenching to obtain dating evidence from ditches, ramparts and hut platforms.

Programme: Designed to enable learning and discovery in a relaxed atmosphere under the guidance of professionals.

Location: In 2012 we will return for a third season to the spectacularly located White Castle hillfort in the Lammermuir hills of East Lothian.

Cost: £575 sterling - includes transport to and from Edinburgh, bunk-house accommodation, meals - Places are limited, so early booking is essential.
